

Litter

Anything that gets in the path of a rain drop becomes storm water pollution. That includes litter.

Every year litter and other debris are removed from creeks in Greenbrier by volunteers of our community.

Never throw anything down storm drains or out of car windows.

Remember to keep truck loads covered to avoid accidental littering.

In April of each year, the City of Greenbrier has a clean up day. City residents can bring all their unwanted items to City Hall for proper disposal.

Litter clogs the path of a small stream
